

## ClearStructure Financial Technology Awarded Best in Direct Lending Solutions 2018

**DANBURY, CT** – October 23, 2018 ClearStructure Financial Technology, a leading provider of award-winning portfolio-management solutions used by investment management professionals and firms including hedge funds, traditional asset management, private equity, private debt, administration, and CLO management, has been awarded “Best in Direct Lending Solutions 2018 – USA” by the 2018 Global Business Insight Awards.

The latest award highlights the company’s position as the leader in portfolio management solutions. This award showcases the power of Sentry PM for direct lenders. Sentry PM positions direct lenders to utilize a single system for all of their research and operational needs, from due diligence to origination, to the daily administration of each loan. The primary differentiator lies in the flexibility within Sentry PM, empowering direct lenders to customize loan structures, thereby meeting the unique needs of their borrowers.

“ClearStructure Financial Technology recognizes the importance of being a global partner to the direct lending industry. We have invested heavily in building Sentry PM to ensure clients receive outstanding services and support from any of our worldwide offices,” said Jeremy Hintze, Partner, and Chief Operating Officer of ClearStructure Financial Technology. “This latest industry recognition is further validation that ClearStructure Financial Technology is achieving its goal of delivering outstanding service and solutions for the direct lending community.”

ClearStructure Financial Technology offers Sentry PM™, a Cloud-based, front-to-back office portfolio management solution used by hedge funds, asset managers, direct lenders, and structured finance groups throughout North America, Europe, and Asia.
